MIXED WITH PASSION, CURIOSITY & TEAM SPIRIT

Some bars have a drinks menu. We have a team that lives it.

Behind our drinks are people connected by one thing:
the joy of experimenting, of taste – and of sharing a moment together.

Our homemade iced teas, signature cocktails, and Red Bull special cocktails are original creations. Developed as a team, refined again and again, and mixed to be light, balanced, and simply enjoyable to drink.

Derek is our mixology nerd. He's not only interested in how cocktails are mixed, but why. For him, aromas, textures, and balance are conscious choices.

Laurenz translates chemistry into pleasure. He loves analyzing ingredients, combining them, and rethinking them. Together with Derek, he creates drinks that surprise without being complicated.

Krystian is our sunshine. Always in a good mood, always motivating, always right in the middle of things. His energy is contagious – behind the bar and throughout the room.

Martin provides the counterbalance: calm, structure, and a sharp eye for detail. He makes sure ideas are executed cleanly, processes run smoothly, and quality remains consistent.

Alongside creativity, we consciously focus on regionality. We work with people and businesses who share our values – and who are part of the Open World family: H.u.M Hofer Organic Winery, Copperstone Gin, and Enkidus Brewery. Partnerships on equal footing – honest, local, and full of character.

And then there are Kathy and Alois. The founders of Open World met in 2024 over pinball – and grew closer playing StarCraft. What started as a game became a shared vision: creating a place where gaming, enjoyment, and real connection come together. Alois, shaped by the film industry, thinks in images, moments, and community. Kathy brings entrepreneurial clarity, structure, and the belief that enjoyment and well-being belong together.

Open World is their shared passion project:
A place for people. For gaming. For enjoyment. For passion.

Our drinks reflect exactly that:
honestly mixed, homemade, regionally inspired – and served with genuine joy.

TRY YOUR WAY THROUGH. MAKE YOURSELF COMFORTABLE. FEEL TRULY WELCOME.

LIN'S ASIA KÜCHE – ORIGIN AND CRAFT

I founded Lin's Asia Küche in 2011 in Dornbirn, Vorarlberg.

Not from a business plan, but from a simple desire: to cook food the way I grew up with – honest, fresh, and made with care.

I was raised with the sound of sizzling pans, the aroma of spices in the air, and conversations about flavor. In my family, cooking was never just about nourishment – it was expression, care, and connection.

My father, Chef Lin, originally from India, brought with him decades of experience in international fine dining, including the development of Asian cuisine in a five-star hotel in Switzerland, Bad Ragaz.

His words still guide me today: "Cooking is imagination."

To me, that means freedom in creativity – paired with mindfulness in every step.

My mother, Lisi aka Mama Lin from Taiwan, passed on something equally important: lightness, balance, and an intuitive understanding of what truly nourishes the body.

From these two worlds, my cuisine was born – calm, clear, and full of flavor.

I truly believe: You are what you eat.

That's why I choose ingredients consciously. Not striving for perfection, but always with care. Fresh vegetables are sourced as locally as possible. Spices are selected for their origin and quality. And every dish is created not just to satisfy, but to feel good.

If you prefer it milder, spicier, or need something adjusted – just let us know. This kitchen is flexible, because people are different.

Today, dishes from Lin's Asia Küche have found their new home at Open World.

Modern in interpretation, open in spirit, and always freshly prepared.

This cuisine is meant to be shared.

At the table. In the moment. With people.

WELCOME TO LIN'S ASIA KÜCHE AT OPEN WORLD.

– Kathy

OUR COCKTAIL STORY AND THE OPEN WORLD FAMILY

Behind our cocktail menu are Derek and Laurenz: two creative minds, two distinct characters, and one shared passion – mixology with feeling.

Derek thinks in flavors, textures, and balance. Laurenz plays with ideas, contrasts, and unexpected twists. Together, they experiment, discard, and refine – until an idea becomes a drink that doesn't just taste good, but tells a story.

Every cocktail on this menu is the result of curiosity, craftsmanship, and countless evenings behind the bar. Nothing is random, nothing standard – each drink is deliberately mixed, tuned to the moment, the community, and the vibe of Open World. This signature is supported by selected partners who share our values.

With **Red Bull**, we create drinks that bring energy, clarity, and momentum into every glass.

With **Copperstone Spirits**, our connection goes beyond gin. Founded by Andreas and Philipp, Copperstone was born during a challenging time in 2020 – driven by passion, a spirit of experimentation, and a clear vision: to unite a love for video games, cinematic storytelling, and the art of premium distillation. The result is a gin that tells worlds – digital and analog alike. A gin by gamers for gamers, by genre lovers for people who appreciate great stories. Since its official founding in 2022 and the launch of its first chapter in 2024, Copperstone has stood for premium gins with depth, clarity, and character.

For selected wine and spritz variations, we trust **H.u.M. Hofer Organic Winery** from the southern Weinviertel. A pioneer of organic farming, the estate has cultivated its vines according to certified organic principles since the 1990s – with the goal of protecting nature and bringing a true sense of place into every glass.

Take your time, explore our creations, and let yourself be surprised.

CHEERS TO CREATIVITY, COURAGE, AND A TRUE SIGNATURE IN EVERY GLASS.

– Kathy
